Rumor of Resignation Arose in Connection With Conservative Caucus Next Week

Calgary, Alt a., June 28.—The rumor has been spread about the city that Mr. R. B Bennett intended to resign at an early date, probably before the Conservative convention which is to be held here on July 5. Doubtless the rumor has been caused by the fact that it was announced that a proxincial leader would be appointed at that meeting for though Mr. Bennett declines, to call himself the leader, he is really the leader of his party in the Legislature whether he calls himself that or not. The rumor has been strengthened by the fact that Mr. Bennett declines both in Medicine Hat and Vermillon. "I have not resigned," said Mr. Bennett to the Albertan.

We can hardly compliment Rev. Alt. Duclos of Erskine Presbyterian Church on his choice of a subject for Partiolic Sunday. It is quite true, as the points out, that we have a large stack shead of us in Canada in assimilating the different races comprising our population. But Mr. Duclos is not hastering the process by using such an occasion to attack the descendants of the first Canadians, the French-speaking people of Queber. They have proven their loyalty to King and country on too many occasions to deserve the aspersions which he cast on their motives. It is a matter of no little satisfaction that in the last decade or so these racial antipathies have come less and less stother force. The great chain which Sr. Wilffel Laurier will have on posterity is that by the sane policy which he has persued the has not only brought the ecople of his own province more thoroughly into sympathy with the public details of thiose of the rest of Canadians, but the hast decade or so these area which we will be the suspicion of French Canada which so many of the English-speaking part of our population entertained. The campaign, which closes in Vermillion tomorrow, has been an exectlent thing all round. It was a source of great weakness to the old government that it did not have to face opposition. Without it, there was no epportunity for it to demonstrate or to develop its fighting qualities. The Conservative organization ascordingly did Mt. Sifton a very genules service in putting a candidate in the field against him. In doing so, they enabled the people of Vermilion, and of the province to realize what a strong and resourceful leader he is, in what a broad and carnest spirit takes up his didities and a strong and resourceful leader he is, in what a broad and carnest spirit takes up his didities and carnest spirit to take up his didities and what his power is to inspire devotion among his followers. That he will receive the large majority that he so thoroughly deserves there is every indication.

It can hardly be necessary to add that Alme, Melba was the recipient, whenever opportunity served, of the warmest tributes, and that in the course of the evening, she had to respond to "calles" innumerable.

Mr. Suckling of Harmiony Hall, who is directing the Edmonton concert of Melba and her superb company, is highly pleased with the growth of the subscription list.

MY TOTEM POLE

The stirring basto song, "My Totem Pole," rendered by Demar Poppen and male members of the chorus
in Wim. P. Cullen's musical comedy,
"The Alaskan," is one of the most
remarkable numbers heard in light
opera. It expresses the genealogy of
the Alaskan Indian as is carved upon
the Totem poles possessed by each
family of that far-away country, which
are handed down from one generation
to another. A particularly excellent
specimen now adorns one of the public squars so of the City of Seattle, lic squares of the City of Seattle, Wash, it having been brought direct from one of the Alaskan Indian vil-lages to that city.

Is Still Unsettled

Montreal, June 28.—Nothing resulted from yesterday's conference between representatives of the Canadian
Pacific and the Trainmen and Conductors Unions save a continuation of the
impasse which has been reached. The
conference lasted some time, but the
representatives of the company practically had their backs to the wall and
stood by their position that they would
not accept the report of the board of
conciliation. The representatives of he men adhered to their demands fo he standard rate of wages for the erritory. Each side explained the easons for its position and eventually he meeting ended, with no evidences of ill-feeling on either side, but no ndication or inclination to compro-

A final effort to settle the differences was made last night when the men sent an appeal to Sir Thomas S' aughnessy as a result of their conference with Mr. Leonard and other representatives. Vice President Berry of the Conductor's Brotherhood stated that the result of the conference had been simply to emphasize the stand of the company on their previous decision to accept the finding of the board of conciliation. This he said the men would not accept and they had now made an appeal to Caesar by writing to the president and the Canadian Pacific.

ANOTHER THING, where will the manufacturers who must eventually gravitate to this centre locate?

THE CHALLENGE ACCEPTED

THE CHALLENGE ACCEPTED
In answer to the bit of Billingsgate
which appeared in the Morning Journal, the Daily Capital makes haste to
accept the baseball challenge.
But why wait until the Edmonton
baseball team goes away? Does the
Journal think we will forget all about
the game by the time the 2t home
games are played? We are ready to
play any day of the week, and though
recognizing the fact that the Journal
learnt the game in night school and
play better after darkness sets in, the
Capital insists on playing in the daytime.

lenge, we are content to leave that to the Edmonton sport enthusiasts to decide for themselves.
